

Meeting Minutes (MoM)

Topic: UI & SSO Planning for Centralized Student System

Date: 10 February 2026

Time: 2:30 PM

Venue: Online

Participants: Core Team

1. Purpose of the Meeting

The meeting was conducted to discuss the user interface (UI) structure and system integration strategy for the centralized student system within the Student Portal.

2. Key Discussion Points

2.1 UI Design for Centralized Student System

- Discussion was held on designing a unified UI that presents **all centralized student systems in a single frame** within the Student Portal.
- The team discussed organizing the interface with:
 - A **priority-wise section** on the dashboard
 - A **category-wise list** of services for structured navigation

2.2 Category Framework Review

- A document related to service categories was shared during the meeting by **Amit Sir**.
- He will circulate the document via email for official review.
- After reviewing the document, the team will proceed to the **system integration phase**.

2.3 SSO Integration Plan

- The core theme discussed was ensuring that **all systems operate under a Single Sign-On (SSO) framework**.
- **Miraj Sir** has already shared the document titled *DIU SSO Integration Guideline*.
- It was proposed that the team will arrange a discussion meeting with the developers of the concerned systems to:
 - Convert existing systems to support SSO
 - Align system frameworks with the university's centralized SSO infrastructure

3. Action Items

Task	Responsible	Deadline
Share category framework document via email	Amit Sir	Attached this mail
Review category document	Core Team	Tentative: 25-02-2026
Arrange meeting with system developers for SSO integration	Concerned Team	Tentative: 23-02-2026
UI Design	Concerned Team	Tentative: 25-02-2026

4. Conclusion

The meeting concluded with agreement on moving forward with UI structuring, reviewing the category framework, and planning SSO integration discussions with system developers to support a unified centralized student platform.
